EXPERIENCE

Stealth Monitoring, Web Designer

June 2021 – December 2024

Designed visual mapping assets for enterprise security clients. Maintained a library of reusable map elements and worked with operations teams to ensure designs met client requirements.

FireSim AR, Product Engineer

January 2019 – December 2019

Designed and developed an Android dashboard for a mixed-reality fire training platform. Conducted user research to define workflows for trainers and trainees in high-stakes scenarios.

Burlington Fire Dept., Product Designer

January 2019 – April 2019

Designed a digital platform for Burlington's fire safety campaign, including a public pledge form and staff dashboard for tracking participation. Worked with fire department staff to shape platform workflows.

CIBC, UI Engineer

January 2018 – August 2018

Designed and built an analytics dashboard using D3.js to help branch managers understand foot traffic patterns and make staffing decisions.
